WORK EXPERIENCE

2024 - Present

Transcend Logix Consulting | Chattanooga, TN

Owner

- Optimization of transportation, supply chain, and operational efficiency for clients across various industries.
- Provide tailored solutions in fleet management, brokerage selection, and complex logistics operations, offering both domestic and international support. With a strong focus on process improvement, I help clients streamline operations and achieve significant cost savings.
- Maintain key relationships with third-party logistics providers, AI & software providers, and carriers. My extensive experience with domestic and global logistics networks ensures smooth coordination of time-sensitive deliveries and freight management.

2022 - 2024

CES Power | Memphis, TN

National Transportation Manager

- Managed CES Power's logistical needs for high-profile events, including NFL broadcasts (Super Bowl), Fox Sports College Football, Coachella, Taylor Swift, Guns N' Roses, Kenny Chesney, and other major artist tours and concerts such as Coachella and Burning Man.
- Hiring and managing multiple departments and up to 80 employees.
- Achieved a 98% on-time success rate.
- Implemented a Transportation Management System (TMS).
- Oversaw the logistics and development of new departments at 12+ satellite branches.
- Developed and implemented Standard Operating Procedures (SOPs), resulting in significant operational success, including saving CES Power approximately \$240,000 on insurance renewal due to robust insurance reporting and procedures.

2019 - 2022

Larkin Express & International | Chattanooga, TN

Director of Operations

- Planned and coordinated domestic and international shipments, ensuring timely and efficient delivery.
- Specialized in handling OD/Specialized freight, Volume, and Spot Market quoting and operations.
- Trained employees on day-to-day logistics activities, including specialized software, while implementing continuous improvement strategies to enhance operations and customer relationships.
- Managed warehousing activities, coordinated portwork, and excelled in on-the-spot problem-solving to address logistical challenges effectively.
